

**Mission Statement:** We intend to tell stories, profiling historical and contemporary artists by adapting their prolific works while adding a narrative about their creative process and message. We strive to foster an environment to ethically appreciate pure artistic expression and AI creativity, stimulated by one's curiosity to discover.

#### Audiences:

- Artists: People eager to showcase their work in a new environment and reach a new audience who might not have access to showcasing their work in other more traditional spaces.
- Art Galleries: looking to find new exciting artists and are interested in this approach to art.
- Art Enthusiasts: individuals who are interested in the art scene and its greater community and how it can evolve.
